SECTION 2: BACKGROUND AND PURPOSE

DEA is the designated State Agency on Aging for the State of Rhode Island, responsible for the development and implementation of a comprehensive, coordinated system of community-based care for citizens sixty years of age and older. A director, appointed by the Governor, administers DEA. Division responsibilities include developing and implementing a State Plan on Aging under the OAA, serving as the state's Single Planning and Service Agency on Aging under the OAA, advocating for the rights of older individuals, operating services designed to assist seniors to remain independent in the community and funding an array of community based services for the elderly. DEA coordinates these efforts and activities of the State Aging Network through the allocation and monitoring of federal and state funds.

The mission of DEA, "to preserve the independence, dignity and capacity for choice for seniors, adults with disabilities, families and caregivers," is realized through the administration of state and federally-funded programs and services that help older adults and adults with disabilities live independently in the community, attaining optimal health and an enriched quality of life for as long as possible. Among the community-based programs and services administered by DEA in support of this objective are: information, referral and options counseling; home health care; adult day services; assisted living services; senior health information counseling; waste, fraud, and abuse education; and protective services. DEA has a long history of collaboration with community partners to deliver these services in a coordinated, consistent and locally accessible way.

The purpose of this RFP is to integrate the delivery of many of DEA's core services related to *information, referral, and options counseling, as well as optimal health outcomes and service delivery* for those populations served by DEA. Integration of these core services will ensure that elders and their caregivers can receive essential information, counseling services and assistance that is consistent, culturally appropriate and *close to home*.

Through this initiative, DEA seeks to fund six (6) grantees to integrate and coordinate the following programs:

- **the Senior Health Insurance Information Program (SHIP)** funded by the federal Centers for Medicare and Medicaid Services (CMS) to provide training, education, and outreach about Medicare. The purpose of the SHIP grant is to support a community-based, grassroots network of local SHIP offices that provide personalized counseling, education, and outreach to assist Medicare beneficiaries with their Medicare and related questions. Grant funds are used to support locally accessible counseling and enrollment services to beneficiaries and their caregivers in coordination with CMS, DEA and community partners.

- **the Senior Medicare Patrol (SMP)** program funded by the federal Administration for Community Living (ACL) to equip Medicare beneficiaries with the tools to protect themselves—and help the government prosecute fraudsters and uncover billing mistakes. SMP programs organize volunteers who work in their communities to educate Medicare beneficiaries, family members, and caregivers about the importance of reviewing their Medicare notices to identify errors and potentially fraudulent activity. Local SMP community partner agencies provide assistance when such issues are identified, so that mistakes are corrected and suspected fraud referred to the appropriate authorities.
- **the Medicare Improvements for Patients and Providers Act for Beneficiary Outreach and Assistance (MIPPA) program** funded by the federal Centers for Medicare and Medicaid Services to provide outreach and assistance to enroll low income and minority Medicare beneficiaries into Medicare Part D plans, Medicare Savings Plans (MSP) and/or Limited-Income Subsidy (LIS) programs.
- **the Regional “POINTS,” key operating partners in Rhode Island’s Aging and Disabilities Resource Center (ADRC).** The regional POINTs provide accessible information, referral, (I&R/A), and “Options Counseling” about long term care services and supports available to seniors, their families, and caregivers. The regional POINTs are conveniently located in communities state-wide and are supported by OAA funds.

DEA currently anticipates funding six (6) grants in the amount of \$161,301 each for the initial eighteen (18) month contract period from January 1, 2014 through June 30, 2015, consisting of a twelve month budget of \$110,867 and a six month budget of \$50,434. *Applicants may submit one budget proposal for the initial eighteen (18) month grant period.* DEA anticipates that the amount of funding available for each of three (3) *one-year* renewal periods of July 1, 2015 through June 30, 2016 (if applicable), July 1, 2016 through June 2017 (if applicable), and July 1, 2017 through June 2018 (if applicable), would be equal to \$100,867 per grant for six (6) grants.

The portion of such funding allocable to SHIP is subject to the availability of funds allocated by CMS (or any successor federal SHIP funding agency, as applicable) to such purposes and/or changes in allocation of funds; the portion of such funding allocable to SMP is subject to the availability of funds allocated by ACL (or any successor federal SMP funding agency, as applicable) to such purposes and/or changes in allocation of funds; the portion of such funding allocable to MIPPA is subject to the availability of funds allocated by CMS (or any successor federal MIPPA funding agency, as applicable) to such purposes and/or changes in allocation of funds; and the portion of such funding allocable to the regional POINTs is subject to availability of funds allocated to DEA under the OAA and/or changes in allocation of funds under the OAA. In addition, all funding under this RFP is subject to changes in allocation of funding by DEA as a result of budgetary and/or program planning actions taken by DEA. DEA also reserves the right to reduce the number of grants made available for each period and/or to reduce the amount of any grant award(s). DEA also reserves the right to terminate this RFP at any time for any reason whatsoever and also reserves the right to not renew contract(s) for any renewal period(s).

SECTION 3: SCOPE OF WORK

General Scope of Work

Funds awarded by DEA pursuant to this RFP shall be used exclusively for those services detailed in this **Section 3 – Scope of Work** in accordance with this RFP, with no exceptions.

The overall Scope of Work for the Integrated SHIP/SMP/MIPPA/Regional ADRC Project will encompass elements that are common to the current service delivery of each program. Among the **service** elements common to the four (4) programs are:

Specific Scopes of Work

1) Scope of Work: Senior Health Information Program (SHIP)

The purpose of the SHIP program is to support a community-based, grassroots network of local SHIP offices that provide personalized counseling, education, and outreach to assist Medicare beneficiaries with their Medicare and related questions.

Grant funds are used to support a network of local partners, programs, staff, and volunteers that will provide

accurate and objective information to help beneficiaries understand and utilize their Medicare related benefits.

Federal requirements mandate that at least \$2,046.75 of the Grant funds provided under this Grant agreement must be spent by each SHIP grantee on one-on-one pharmaceutical benefits counseling to “dual-eligible” individuals, including dual-eligible individuals with mental illness/disabilities. Each SHIP is required to provide evidence of the foregoing from time to time at DEA’s request in such format as shall be required by CMS and/or DEA.

Delivery of Service and System Design Requirements:

Statewide Regions for Integrated SHIP, SMP, MIPPA, Regional POINT Projects

In 2012, DEA issued an RFP for Case Management Services statewide. The Case Management RFP provided for case management services to be provided on a regional basis and divided the State into six (6) geographic regions, based on an analysis of the most recent *census data for RI, including age-related demographics, and DEA service utilization history for each region*. This methodology ensured a deployment of resources and community access for consumers that was convenient, efficient, culturally appropriate and consistent across the state. To ensure that these elements are embedded in this project, DEA likewise will seek six (6) agencies (i.e., one agency per region) to provide **integrated services for SHIP, SMP, MIPPA, regional ADRC services** for the same six regions as follows:

- **Region 1:** includes the following cities and towns: Burrillville, Glocester, Foster, Scituate, Woonsocket, North Smithfield, Smithfield, Johnston, Cranston, Cumberland, Lincoln, North Providence
- **Region 2:** includes the following cities and towns: Warwick, West Warwick, Coventry, East Greenwich, West Greenwich
- **Region 3:** includes the following cities and towns: Exeter, Hopkinton, Richmond, Westerly, Charlestown, North Kingstown, South Kingstown, Narragansett, New Shoreham
- **Region 4:** includes the following city: Providence
- **Region 5:** includes the following cities and towns: Central Falls, Pawtucket, East Providence, Barrington, Warren, Bristol
- **Region 6:** includes the following cities and towns: Portsmouth, Tiverton, Little Compton, Middletown, Newport, Jamestown

Requirements for System Design

To further ensure that services provided by each grantee are consumer-centered, culturally appropriate, and locally and easily accessible, proposals should demonstrate a coordinated, organized and efficient *system* of services in the region that can be understood easily by the public. Successful applicants will demonstrate that they will enter into formal agreements with at least two (2) subcontractors within their region to integrate and disseminate information and services in a coordinated, organized and efficient manner across the regions for which they are responsible.

It is the intention of this RFP that each grantee's subcontractors will play an integral role in the delivery of direct services to clients within each region. The subcontractors should be known to and accessible to the target populations. Applicants must demonstrate that proposed subcontractors possess the expertise and appropriately skilled staff to provide the services outlined in the Scope of Work. Subcontractors should have expertise in customer service, information and referral and

counseling with the appropriate target populations as well as detailed knowledge about the program guidelines and requirements included in this proposal. Applicants must demonstrate with specificity how and by whom such services will be delivered. Each grantee shall be solely responsible for ensuring its subcontractors' compliance with the terms and conditions of the grant.

Successful applicants will demonstrate clearly how grant funds will be disbursed. The budget submitted by each applicant in response to this RFP should reflect the material role to be played by subcontractors in the project through the disbursement of a significant portion of the grant funds to the subcontractors.

After deducting indirect costs (to the extent indirect costs are permitted per Section 4 below), each grantee may apply up to fifteen percent (15%) of the grant funds to the direct costs incurred by the grantee for oversight, coordination, training, data collection and reporting for the project; the remaining eighty-five percent (85%) of the grant funds must be applied to the direct cost to provide such services to clients as required in the Scopes of Work described above.

The grantee agency may apply grant funds to the cost of direct Scope of Work services provided by a member of the grantee's staff, provided that (1) the grantee demonstrates that the staff member has a history of providing the services outlined in the Scope of Work and possesses expertise and experience in customer service, information, referral and counseling with the appropriate target populations, as well as detailed knowledge about the program guidelines and requirements included in this proposal and (2) no more than twenty-five percent (25%) of the *direct service grant funds* may be applied by the grantee to internal grantee staff costs to deliver Scope of Work services.

Additional Responsibilities for all Successful Respondents to this RFP:

1. Provide all office and program space, office equipment, and office support necessary to meet all requirements of this contract.
2. Bear all costs associated with implementation and performance of this contract.
3. Meet all computer system and data reporting requirements. The grantee must be willing to procure, at its expense, all required license(s) to access any data system required to be used by DEA in order to track client contacts and activity. The grantee also must be willing to obtain, at its expense, all computer software and hardware needed by the grantee to meet program requirements.
4. Obtain and maintain all required insurance necessary to cover project staff.
5. Supervise all staff related to this grant, including all subcontractor duties.

In addition, the indirect cost rate for the proposal cannot exceed the lesser of (a) the applicant's current federally approved indirect cost rate or (b) fourteen percent (14%); if the applicant has no current federally approved indirect cost rate, then indirect costs will not be permitted (the indirect cost rate is calculated by

dividing the indirect costs of the project by its direct costs). These limitations on indirect costs apply also to all subcontractors.

NOTE: Applicants wishing to apply for grants for more than one region must submit a separate application for each region.
